

## 10x Genomics Webinar

**Biology at true resolution :  
Resolve biological complexities with single cell and  
spatial solutions**

**Date : Dec 9, 2020 (Wednesday)**

**Time : 10am to 11am**

Scan QR code or click [here](#) to register

The vast complexities of biology require approaches to build a complete picture, starting from single cells to tissues and beyond. At 10x Genomics, we provide single cell and spatial solutions that enable researchers to drive the leading edge of what's possible. Resolve highly complex biological systems, while bringing into focus the details that matter most.

Join us for this seminar to learn how Chromium Single Cell Solutions and Visium Spatial Solutions from 10x Genomics can help you push the boundaries of your research. Uncover molecular insights, dissect cell-type differences, investigate the adaptive immune system, detect novel subtypes and biomarkers, and map the epigenetic landscape cell by cell. 10x Genomics gives researchers the ability to see biology at true resolution.

Leo Chan, PhD,  
Science & Technology Advisor, APAC Lead,  
10x Genomics
